

## Photography Workshop: Flower Photography

### Event Date:

Sun, Feb 26, 2017

Joshua Taylor, Jr., Photographer

The U.S. Botanic Garden is the perfect setting to learn, explore, and capture stunning flower images. Learn techniques to get the best images by photographing colorful and unique flowers, including thorny desert plants and colorful tropical blossoms. This workshop offers a combination of hands-on and shooting sessions with the instructor. The instructor will cover close-up techniques, photographing with props, light control, and visual design. The workshop includes online pre-workshop instruction, an illustrated handout, and a critique/sharing of participants' images. The afternoon session will cover timesaving and enhancement techniques using Lightroom, Photoshop, and Photoshop Elements. Participants' images will be used to introduce new techniques. Please note: Participants should have a working knowledge of their camera. Some activities are NOT applicable to point-n-shoot cameras. [More information](#) can be found [here](#). Doors open at 8:45 a.m. Please bring a lunch.
